

# Help improve health research for Atopic Dermatitis (Eczema)

Patient Engagement in Clinical Development (PECD) Service

**NIHR** | National Institute for Health and Care Research

Are you an adult living in the UK with lived experience of atopic dermatitis (eczema) as either a patient of, carer or parent? We need your help to share your thoughts on a new study designed to improve the lives of children and adults with atopic dermatitis (eczema).

## 1 Who we need

We are looking for **8 patients or carers** who:

- Live in the UK and are 18+.
- Have lived experience as a patient of, or as a carer or parent of someone with, atopic dermatitis (eczema).
- Can use a computer/tablet to read Word docs.

## 2 What you will do

You will review draft documents for a new research study.

- Read info sheets written for patients.
- Check if language is clear & sensitive.
- Help make the study better for patients.

## 3 Time involved

- It will take **2 hours** of your time.
- You can do this from home.
- You have **10 days** to send feedback.

## 4 Payment

We value your time and expertise.

You will receive a payment of **£55**

## Interested? Apply Now
